

Transport baskets 600 x 400 x 320 mm

The perforated euro containers from bekuplast are ideal for transporting and storing bread and baked goods. The transport baskets allow air to flow through freely to keep the bread and baked goods fresh for longer periods of time.

Transport baskets for bread: a quick overview of their advantages!

- stackable with all common basket systems
- perforated structure for optimal ventilation of the products
- unbreakable and dimensionally stable
- easy to clean, dishwasher safe, easy to dry
- made of HDPE (high density polyethylene)
- guaranteed food-safe
- 100% recyclable
